

Georgia Tech is among the nation's top colleges for return on investment. We provide an affordable, world-class education and transformative experience to talented, motivated students who have a desire to solve problems, improve lives, and contribute to their communities, organizations, and our country.

Talent is everywhere; opportunity is not. To bridge this gap, we partner with influential stakeholders, including K-12 superintendents, high school principals, community and government representatives, corporate sponsors, philanthropic organizations, Tech alumni and current students, and donors in our mission to:

1. Develop future talent pipelines that educate students about our academic and career development opportunities.
2. Provide scholarships and other financial support to ensure an affordable education to top students, regardless of socioeconomic background.
3. Broaden our geographic reach in Georgia, so students from all counties, communities, and schools find a home and a family on campus.

Georgia Tech's Rural Computer Science program, a state-funded initiative, empowers teachers with new skills and inspires students to pursue tech careers while addressing workforce needs for Georgia's future economy.

ACCESS, ADMISSION, AFFORDABILITY

K-12 Student and Teacher Success

Tech provides Georgia students and teachers with the training and exposure they need to succeed — inside and outside the classroom. Programs include the Georgia Tech Summer Institute, Rural Computer Science Initiative, in-school and extracurricular STEM experiences, professional and workforce development, curriculum development, STEM competitions addressing robotics, invention, and entrepreneurship, and much more.

Dual Enrollment

Over **1,700 students** from more than **100 Georgia high schools** took dual enrollment courses this year to enrich and supplement their high school experience, earn college credit, and prepare for the future.

admission.gatech.edu/dual-enrollment

Georgia Tech Scholars

Tech guarantees admission to valedictorians and salutatorians from eligible Georgia high schools and provides additional scholarship aid to those who demonstrate significant financial need.

Transfer Pathway Programs

Twenty-five percent of new Tech students transfer from another college or university through articulated pathways, including students from first-generation, limited-income, and military backgrounds. We are committed to expanding access by building more routes to a Georgia Tech education.
