

Georgia Tech consistently ranks among the nation's top-value colleges for return on investment. Our goal is to provide an affordable, world-class education to students with talent, potential, and a desire to solve problems and improve lives.

By partnering with influential stakeholders, including K-12 superintendents, high school principals, community leaders, government agencies, corporate sponsors, philanthropic organizations, alumni, current students, and donors, Georgia Tech will:

1. Develop diverse talent pipelines that educate students about our academic and career development opportunities.
2. Provide scholarships and other support to make our education affordable for top students, regardless of their family's financial background.
3. Broaden our geographic reach in the state of Georgia, so students from all counties and communities find a home and a family on campus.

ACCESS, ADMISSION, AFFORDABILITY

K-12 Student and Teacher Success

Tech supports Georgia students and provides our state's teachers with the training they need to succeed — inside and outside the classroom. Take a closer look at programs, including the Rural Computer Science Initiative; in-school and extracurricular STEM experiences; professional and workforce development; robotics, invention, entrepreneurship; summer STEM; and first-generation opportunities.

First-Generation and Limited-Income Student Programs

Talent is everywhere. Opportunity is not. As an anchor institution and an engine of social and economic mobility, Tech is especially focused on first-generation students and those with limited-income backgrounds. Tech is committed to providing support, success strategies, and networking and mentoring opportunities to these students.
